BRITISH COLUMBIA

INTRODUCTION

British Columbia Business Information Contacts - 1985 is a sequel to the previously published Source Book.

It is intended to be a comprehensive listing of the major organizations with which most businesses will have some interaction.

Thus Contacts '85 can be used by the fledgling entrepreneur needing addresses of the various regulatory bodies governing a business startup, through to the well established, growing company needing the address of one of Canada's trade representatives abroad.

The listings are not all-inclusive, concentrate only on business-related contacts, and are subject to change. Private sector, profit-making business advisory services are not included as listings of these enterprises can be obtained from a number of other sources.

Your comments and suggestions for improvement are solicited.
